

## Open Position

### Scientist/ADC specialist: ADC Chemistry (100%)

---

Araris Biotech AG is a PSI and ETH spin-off company based at ETH Zürich-Hönggerberg, Switzerland, developing high performance antibody-drug conjugates (ADCs) using our proprietary Araris Linker Technology. We are currently looking for a highly motivated Scientist and ADC specialist to join our enthusiastic and dedicated team.

#### Responsibilities:

- Develop, execute and manage drug discovery projects for our internal research programs and collaborations with our pharma partners
- As part of chemistry group, plan, execute and manage development of novel programs with your organic chemistry expertise and oversee CRO projects.
- Track, monitor and report project progress and ensure data quality
- Support the Araris Team to fulfill our milestones

#### Requirements:

- PhD degree in Organic, Medicinal or Protein Chemistry or in a related technical field
- Strong background in chemistry and ADC technology is required
- Experience with enzymology, bioengineering and biochemistry or oncology models and assays are highly welcomed
- Excellent knowledge in chemical design, synthesis and analytical chemistry, ideally of ADCs
- Postdoc or industrial experience is an advantage
- Passionate about working in a high intensity-work start-up company that is rapidly evolving
- Excellent communication, presentation and organizational skills
- Strong and fun team player

Do you feel ready for this challenge at Araris Biotech? We are looking forward to receiving your application!
